

## **Transition Chepstow Steering Group Values**

### **Who we are**

We are a group of people who all care about our environment and our future. Our particular agenda is to try to address, locally, the causes and the effects of climate change, rising fuel costs and economic uncertainty by supporting and facilitating local resilience against these effects.

We are all volunteers and give our time and effort for the long-term benefit of the local community.

### **How we work**

- ◆ We work together as a team to achieve our objectives
- ◆ We engage with the community at every opportunity to raise awareness of issues around climate change and peak oil and provide practical opportunities for involvement in projects addressing these
- ◆ We initiate, promote and support specific practical projects in Chepstow and the surrounding areas over a wide range of interest areas
- ◆ We work in partnership with appropriate local groups and organisations
- ◆ We work closely with the Town Council and Monmouthshire County Council
- ◆ We organise and support appropriate local events
- ◆ We meet as a group several times a year to discuss and make collective decisions about projects, events, funding issues and communications in accordance with our Constitution

### **Group values - we are all committed to:-**

- ◆ Safeguard the good reputation of Transition Chepstow
- ◆ Conduct our business with courtesy and good manners to all
- ◆ Abide by the decisions made by the Steering Group
- ◆ Encourage and support each other
- ◆ Share appropriate information and ideas with each other
- ◆ Respect everyone's views, ideas and beliefs
- ◆ Promote equality and diversity in our work
